## WOMENS SIZE GUIDE

Fashion Biz sizes are designed to fit average industry standards for the below body measurements. Please use this handy Body Measurement Guide to compare your own measurements and help you determine which size to order.

#### Fit Tips

If one of your measurements is on the borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit. If your measurements for hips and waist correspond to two different suggested sizes, order the one indicated by your hip measurement.

#### Garment to Garment Comparison

An alternate method is to compare your own garment size to ours. You can do this by measuring the  $\frac{1}{2}$  chest of your garment (laid flat, measured 0.5in below the sleeve join, from side seam to side seam) and compare it to ours. Please refer to the individual garment measurements, shown on each style page, to determine your garment to garment size comparison.

Use these measurements as a guide when selecting the right size garment, but also take into consideration the garment fit.

**A. BUST**

Measure under your arms and across shoulder blades, around the fullest part of your bust. Hold one finger between body and tape.

**B. WAIST**

Measure around your natural waistline while holding one finger between body and tape. This is the smallest part of your waist.

**C. HIP**

Measure around fullest part of your hips (about 20 - 24cm down from waist) while standing naturally.

**PANT AND SKIRT LENGTHS**

Pants and skirts will vary in length depending on the height of each individual and also their shape. All pants come with a hem allowance allowing for easy alterations.
